on a car - without
tools

with Cable Head
code no. 145477

The MULTI MOUNT System
the creative way of rigging
- any way, anywhere.

The MULTI MOUNT system is ideal
for mounting cameras, lights or
other accessories on all smooth
surfaces.

Depending on how it is used, the
three suction pads can achieve a
maximum payload of 80 kg | 176 lb.

The mounting plate is designed
in such a way that it can either
accept the camera directly with a
3/8" screw, a 100 mm fluid head
or even a remote head.

With the included Euro Adapter,
the MULTI MOUNT is compatible
to the versatile Panther accessory
range.
